Banner Opportunities

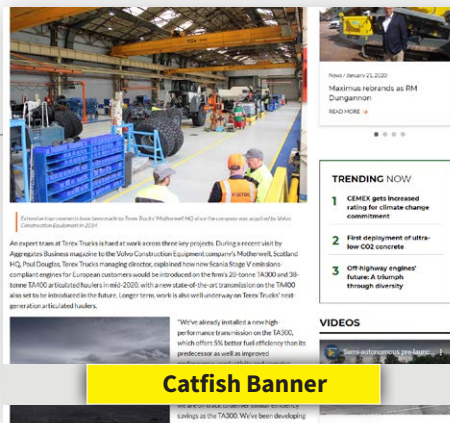

Special Position – Catfish Banner (One advertiser per month)

This is the most visible position on the website as it appears at the bottom of every page apart from the Homepage, where it reverts to position H. The Catfish Banner effectively becomes part of the website, as it is constantly on-screen, even when visitors scroll the page or change pages. Every visitor will see the Catfish Banner and they can either click on it to visit your website, or close it until their next website session. Either way, they will have seen your brand and read your message. This is the most impactful position on the website, as it is exclusive to one company per month.

Desktop size: 728 x 90

Responsive sizes:

300 x 100, 300 x 50, 600 x 75

The Catfish banner floats above published content on the website.
