Banner Opportunities

Special Position – Catfish Banner *(One advertiser per month)*
This is the most visible position on the website as it appears at the bottom of every page apart from the Homepage, where it reverts to position H. The Catfish Banner effectively becomes part of the website, as it is constantly on-screen, even when visitors scroll the page or change pages. Every visitor will see the Catfish Banner and they can either click on it to visit your website, or close it until their next website session. Either way, they will have seen your brand and read your message. This is the most impactful position on the website, as it is exclusive to one company per month.

Video is the fastest growing digital medium, as it is one of the most effective methods of engaging your target audience.

We understand that it is costly to create a company &/or product video, so, having made that investment, it is imperative to have it seen by as many transportation professionals as possible.

Through our new website, ITS International can now offer many excellent opportunities to help you reach this important industry audience on a worldwide basis.

We can even help create your own product and corporate videos. See below for more details.

A Premium video position

B Basic video

Your video will be hosted on the homepage and in the video lists.

Product walk around/site report video: POA

Hosted by one of our experts, the product walk around will be professionally filmed and edited by our production department. The video will be hosted in a prime slot on the homepage.
